To whom it may concern,

I am writing to give my recommendation of Chace Moniz's skills. Last school year I had the pleasure of being Chace Moniz's teacher for Web Design. During that year, I watched him learn many things and accomplish even more. Chace has a determination to try his best and try new things, which is evident in his senior project. For his project, he informed me that he will be exploring machine learning through AI and working with databases. Chace is excellent at teaching himself how to do something if it is a topic that he wants to explore. He has looked into modifying games on his own, having to dive into learning new code in order to make his mod work.

Chace is also an exceptional programmer, who naturally is able to understand the problems in front of him and solve them. Please feel free to contact me at astdon@glcps.org should you like to discuss Chace Moniz's qualifications and experience further. I'd be happy to expand on my recommendation.

Sincerely,

Alyssa St. Don
